RE: Region 34 approval of 800MHz application identified below

Dear Director Carrao:

As the Chairman for Region 34 800MHz Planning Committee, I write this letter to reflect that the committee has reviewed the State of Oklahoma's application to the Federal Communications Commission (FCC), Frequency Coordination RSAH08311600674 (license WQCQ879) operating under rules 90.617, FRN 0004251633 as our application #800-006-APP.

The committee found that the request was in compliance with the Region 34 Plan. The Committee suggested a change to the ERP filed with one of the base stations from 35 watts to the intended ERP of 499 watts. On 12/7/16, Alireza Shahnami (The Spectrum Firm, Inc.) provided an updated 601 containing the corrected base station power and ERP levels. Based upon the initial review by the Committee, and subsequent updates from the ACD Telecom, the application has been approved.

Please accept this letter as an approval for the aforementioned amended Frequency Coordination RSAH08311600674.

Respectfully,

Scott Walsh
Chairman, Region 34 700MHz Committee and 800MHz Committee
