Dear Chairman Williamson,

On September 21, 2009 Regional Planning Committee (RPC) 34 (Oklahoma) electronically submitted its plan for the 700-MHz General Use channels in the 769-775 and 799-805 MHz Bands for approval to the Region 24 700 MHz Regional Planning Committee. The Region 24 Regional Planning Committee has reviewed the Region 34 plan and found the plan, including its channel allotments, to be consistent with the Region 24 700 MHz approval implementation process and the CAPRAD channel allocations for counties adjacent to Region 24 (Missouri).

To ensure that Region's 34 and 24 utilize their 700 MHz General Use allotments in a effective and efficient manner, Region 24 will share with Region 34 applications that request 700 MHz channels in Missouri counties immediately adjacent to Region 34. We may also share Region 24 applications in counties not immediately adjacent to Region 34 should we feel that Region 34 needs to consider the impact of such an application on their 700 MHz General Use allotments.

Region 24 hopes to work with Region 34 on 700 MHz implementation in the future. We have reviewed the Region 34 plan and consider this letter an official indication of concurrence from Region 24 as to the content and intent of the Region 34 700 MHz plan as submitted Sept 21, 2009.

Hardcopies of this letter, along with the provided Region 34 Inter-Regional Coordination Procedures and procedures for Resolution of Disputes will be mailed to the Region 34 Chairperson at the address above.

Please contact me with any questions, comments, or concerns at my contact information listed.

Regards,

Stephen T. Devine

Interoperability Program Manager
